chord-too-long

A chord tone lasts longer than its leading note

Actual: 2 / Reference: 1

► Open evidence · #1 / #3 / Event #2

Event ledger 3

Fragments are capped at 1,200 characters. Locate evidence by part, measure, and event ordinals.

#1	Note	Voice 1 · Staff 1	0 → 1
#2	Chord tone	Voice 1 · Staff 1	0 → 2
#3	Note	Voice 1 · Staff 1	1 → 4

► Input file SHA-256

Screen printing contains only the selected measure. Save the JA/EN report for all-measure evidence.

Know the boundary.

Inspect duration ÷ divisions in score-partwise files. Voice lengths are never summed, and tuplet ratios are never applied twice.

No engraving, playback, OCR, automatic repair, full XSD validation, or musical-correctness verdict. Mid-measure divisions / meter changes and staff-specific meters are marked unsupported.

No external images, DTDs, or links are fetched. No automatic saving or data transmission. Closing the page discards imported data.
